

PT Workgroup Update

6/24/2020

Attendance

5/28

- Ryan Zboralski, Sara Sekerak, & Alyssa Peter; Ecology
- Nick Poolman; WSLCB
- Steve LaCroix; DOH
- Qing Gu; WSDA
- Jay Burns; Treeline
- Bonnie Luntzel; Praxis
- Steve Loague; Integrity

6/9

- Ryan Zboralski, Sara Sekerak, & Anastacia Green; Ecology
- Nick Poolman; WSLCB
- Jay Burns; Treeline
- Bonnie Luntzel; Praxis
- Steve Loague; Integrity

5/28 Highlights

- Finalize High THC vs. High CBD
- Terpenes
- Survey Results
 - First marijuana flower, then hydrocarbon/CO2 extracts, then edibles, isolates and distillates, a tie between food grade solvents and infused oils, last is non-solvent products.
 - Potency and pesticides first, then mycotoxins, microbial, terpenes, residual solvents, metals, water activity, moisture, and lastly foreign matter.
- Edibles/End Products PTs
- Began Intermediate Products

6/9 Highlights

- Finish Recommendations for Intermediate Products
- Presentation of Initial Recommendations to the Steering Committee for feedback
 - Recommendations are available for revision by The Client but cannot become less strict
- LAU's Procedural Manual Review

Matrix-matching recommendations

- Potency
 - Flower Lots: Must be in-matrix
 - Intermediate Products: Use of Hemp PTs is permitted
 - End Products: Must be in-matrix
 - specific matrix is limited to market availability
 - we strongly recommend a PT to be made available that is more in-line with the concentrations seen in the market
- Pesticides
 - Flower Lots: Must be in-matrix
- Metals
 - Flower Lots: Use of Hemp PTs is permitted

Matrix-matching recommendations cont.

- Moisture
 - Flower Lots: Use of Hemp PTs is permitted
- Foreign Matter
 - Flower Lots: Use of Hemp PTs is permitted
- Microbio
 - Flower Lots: Use of Hemp PTs is permitted
 - Intermediate Products: Use of Hemp PTs is permitted
- Mycotoxins
 - Flower lots: should be in matrix but hemp is permitted in some cases
 - Intermediate Products: should be in matrix but hemp is permitted in some cases

Matrix-matching recommendations cont.

- Residual Solvents
 - Intermediate Products: Must be in-matrix
- Terpenes
 - Flower lots: should be in matrix but hemp is permitted in some cases
 - Intermediate Products: should be in matrix but hemp is permitted in some cases
